Able to return to work.

My Professional Learning

- 1) In the ATA urban teachers have the power/control of the association. The same is true of the ASBA. Urban boards are the decision makers. Rural boards need to collaborate more consistently and support each other. Urban boards should be more considerate of the effect decisions have on the entire province.
- 2) There isn't a system guaranteeing all larger communities will have a local trustee. Therefore, it is necessary to have conscientious trustees.

Committee Reports

- 1) The mediator's recommendations for an ATA/TEBA central agreement was ratified by Alberta boards. The ATA votes on April 07. ATA general information meetings have occurred.
