Celebrations

ASBA Indigenous Shining Student Award - Very proud of Matthew Halton Grade 10 student Irvin Provost for earning the silver medal position for the Indigenous Shining Student Award. This award celebrates First Nation, Metis and Inuit students who demonstrate leadership and inspire others through embracing and respecting Aboriginal perspective or worldview. Irvin was chosen from over 60 nominations from across Alberta. WAY TO GO IRVIN.

Matthew Halton hosted an exceptional **First Nation Student Summit**. Students from Halton, Piikani and FP Walshe engaged around this year's theme: Empowering the Youth Students of Today to be the Leaders of Tomorrow. Mentorship was alive and well as experts inspired youth to empower themselves, take risks and get involved.

Experiential Learning Week is scheduled for May 1st-5th 2017 at Matthew Halton. Hopefully you will get a chance to pop by the school to witness the amazing learning that happens during this week. Life changing for many students. A true testament to community engagement, inspiring education, and youth empowerment.

Pincher Creek "Day on the Creek" May 24th, 2017 - Following a series of "Community Conversation on Learning" engagement sessions, a core group of teachers, parents, community organizations, and interested individuals have been working together to facilitate the development of outdoor education and stewardship experiences for students from schools within the towns of Pincher Creek, Lundbreck, and Brocket. Loosely organized under the banner of POEM, the Pincher Outdoor Education Movement, this group is putting together a "Day on the Creek" event on May 24th, 2017. Teachers, students, and the public will be invited to attend a series of learning stations set up along and adjacent to Pincher Creek within the boundaries of the Town of Pincher Creek. It is hoped that this "Day on the Creek" will kick-start efforts to get students outside and actively engaged in environmental learning and stewardship.

Canyon school is in the process of generating ideas around **Green Schools** - Some projects currently underway: Grade 4's are working on a gardening project; school council has spearheaded a sub committee that is working on ideas for healthy/green schools; staff are gearing up to participate in the "Day on the Creek"; along with the program planning happening with the school thanks to the Government of Alberta school nutrition pilot program.

Presentation by CRTC Commissioner, Dr, Linda Vennar (Alberta & NW Territories) - described the role of the CRTC - The CRTC is an administrative tribunal that regulates and supervises broadcasting and telecommunications in the public interest. It is dedicated to ensuring that Canadians—as citizens, creators and consumers—have access to a world-class communication system that promotes innovation and enriches their lives.

She then talked about the Basic Telecom Service Review that was undertaken by the CTRC as a result of input from the public. This review said the internet was a basic utility; that the new service levels should be speeds of 50 mbps download & 10 mbps upload for fixed broadband selection. The federal government has established a fund (\$750 million) to support projects in areas that do not meet the new service level. The focus is on underserved areas however there is not a definition of an underserved area. (<http://www.ctc.gc.ca>)

My Committee Report(s)

Alberta S.W. Regional Alliance Meeting - update on SAAEP "Powering Opportunity" and response to questions on geothermal study from Terrapin Services.

Letter to Ministers from Brian Reeves (Waterton) was discussed regarding commissioning a Tourism Economic Impact assessment on the Castle Wilderness & Castle Provincial Park. This led to discussion on the Park & on other municipal bodies in the area writing letters including Alberta SW. More to follow next meeting.

Proposal to be involved in the 13 Ways Partnership/Pilot Project idea to develop a technology solution that will

allow municipalities of any size - but specifically rural Municipalities - to assess the health of their community against a proven set of metrics. The community's ability to be successful will be evaluated by looking at leadership, attitudes and internal organizational performance. Further discussion to follow.

Priorities for 2017-2018, 2018-2019 were presented & discussed.

Next meeting: May 3 - Waterton.

AGM - June 1st - Claresholm
