

2023/2024 Dual Credit Course Schedule

WINTER 2024

ACT 1012 Accounting Principles II	This course is a continuation of ACT 1011 to allow for additional study of accounting at an introductory level.
AHT 1140 Veterinary Practice: The Team Connection	Students will become familiar with the aspects of the service cycle within a veterinary clinic. Students will explore veterinary software and their specific application to operating a veterinary practice. They will apply communication skills to create positive experiences for veterinary clients.
ATG 1007 Electronics and Control Systems in Precision Agriculture	Students will investigate foundations of control systems, electronics and practical applications in precision farming.
EVS 1210 Applied Ecology	Students will be provided an introduction to ecological principles at the species, population, community and ecosystem levels. Specific application of ecology to sustainability and the management of forest and grassland ecosystems are studied.
HAT 1255 Global and Sustainable Tourism	Students will gain an understanding of the psychology of travel, tourism sectors, the role of key industry players, and contemporary issues in ecotourism, sustainability and business operations of various facilities, with a focus on the analysis of the service and operations from a guest perspective.
HORT 1500 Managing Landscapes	Students gain experience in managing landscape sites through acquisition and implementation of design principles, cultural practices of plant material, and advancing the sustainability of landscape environments to industry standards.
SPM 1020 Training for Performance	Students will learn about various aspects of training for performance. They will analyze the basic science behind activity, energy systems, and macrocycles in sport training.
