

Board of Trustees Advocacy 2024 - 2025

Relationships & Collaboration

Livingstone Range School Division develops meaningful relationships and collaborates with community partners in the best interest of 'Every student, every day.'

Student Mental Health

In the interest of student wellness and success, we advocate for student mental health through an extension of the Mental Health in Schools pilot program and cross-ministry efforts with Alberta Health Services.

Predictable, Sustainable, & Ample Funding

Livingstone Range School Division advocates to the provincial government for predictable, sustainable, and ample funding for student instruction, operations, maintenance, transportation, and student support.

Staff Recruitment & Retention

We recommend that all levels of government proactively create favorable conditions for the recruitment and retention of educational staff.

Livingstone Range
SCHOOL DIVISION

In our governance role as a Board of Trustees, we work with other elected officials and interested parties to advocate for rural public education to ensure success for all students.
